- React
- Wordpress
- Bootstrap
- Ruby and Rails
- Light House
- Database
- Restful APIs
- Web Builders
- DevOps tools
- GSAP Animation
- Github

Experience

2019 - 2023

Unisys., Salt Lake City
Full Stack Developer

In my current role, I bring a robust understanding of diverse back-end technologies, actively utilizing Node.js, and Ruby on Rails to drive the development of scalable and efficient solutions. My hands-on experience extends to working with modern front-end frameworks, including React, Angular, and Vue.js, where I've played a key role in enhancing the user experience.

- Diverse back-end technologies Node.js, Python, and Ruby on Rails
- Modern front-end frameworks React, Angular, and Vue.js
- Active contribution to the design and implementation of RESTful APIs
- Pivotal role in optimizing development workflows through the effective use of DevOps tools, including Docker and Jenkins
- Collaborative work with database administrators to design and optimize database solutions, managing both SQL and NoSQL databases.
- Demonstrated commitment to organized and collaborative development processes through familiarity with version control systems such as Git, GitHub, and GitLab

2017 - 2019

WordPerfect Corporation,. Orem, Utah
Frontend Developer

I began my career at WordPerfect, a software company renowned for its popular word processing application, based in Orem, Utah. Over my 3-year tenure I served as a Front-end Web Developer. My key roles were

- Led design mockup creation (Illustrator, Photoshop, React)
- Managed tasks (Agile, ticket software)
- Established client communication (IM, voice)
- Translated mockups into web pages (HTML, CSS, jQuery, Bootstrap, React)
- Executed seamless transformations
- Converted HTML/CSS to WordPress
- Innovated in Theme development
- Integrated plugins proficiently

2012 - 2016
Unisys., Salt Lake City

Web Developer

I demonstrated commitment to clean, efficient, and well-documented code during my internship, actively contributing to website functionality with HTML, CSS, and JavaScript. This commitment led to my promotion to Web Developer post-internship. In this role, I excelled in creating design mockups, translating them into HTML/CSS pages. I played a key role in converting static designs into dynamic web pages using React and integrated them into WordPress CMS. My versatility extended to Custom/Premium Themes for WordPress and Shopify, showcasing proficiency in plugin development, demonstrating adaptability and attention to detail.

Stack & Skills
